## New Distribution Center

"Committed to Service Beyond Expectations"

WINSTON-SALEM, North Carolina --- April 12, 2012 --- Green Resource recently expanded into its fifth distribution center, which is located in Winston-Salem, North Carolina. The complex consists of 22,000 sq. ft. of warehouse and office space. The site is conveniently situated near Stratford Road in the southwest region of the city, and only minutes away from Interstate 40.

Jonathan Annas and Todd McPeak, the company's owners, both agree that "Strong demand for our products and services necessitated that we add additional space. We remain committed to better serve our customer base throughout the Southeast. It just made good business sense to open a new distribution point so that we can operate more effectively and efficiently."

### **Green Resource**

Founded in 1994, Green Resource is a large wholesale distributor, who markets and sells professional-grade fertilizer, chemicals, native and turfgrass seed, and erosion control products from five strategically-located distribution centers. The company serves golf courses, lawn care operators, grounds maintenance companies, nurseries, retail lawn and garden centers, greenhouses, and prominent landscaping firms throughout the southeastern United States. Green Resource is a privately-held, limited liability North Carolina corporation.
